

- [Saudi Sheikh Wajdi Hamza Al-Ghazawi](#) - preacher started a popular new website "[Al Minbar](#)," an Arabic word that refers to the pulpit in a mosque. He said 3 years ago

"I visited the most celebrated imams in the whole world and explained my proposal to them. Some of them were enthusiastic about it. And these are the results: three thousand imams from 62 nations visit my Arabic website every week. I'm sure that number will double with the English version."

"The terror that Islamic religious law permits is terrifying the cowards, the hypocrites, the secularists, and the rebels by imposing punishments according to the religious law of Allah."

"The meaning of the term 'terror' used by the media. is Jihad for the sake of Allah. Jihad is the peak of Islam. Moreover, some of the clerics. see it as the sixth pillar of Islam. Jihad - whether Jihad of defense of Muslims and of Islamic lands such as in Chechnya, the Philippines, and Afghanistan, or Jihad aimed at spreading the religion - is the pinnacle of terror, as far as the enemies of Allah are concerned. The Mujahheed who goes out to attain a martyr's death or victory and returns with booty is a terrorist as far as the enemies of Allah are concerned. Accordingly, the believer must not use this word. Jihad, oh believers, is an integral part of our religion. The word 'terror' is used to damage this mighty and blessed foundation." ([Al-Manshawi Mosque, Mecca, October 6, 2001](#))
