An [unclassified Pentagon analysis](#) of the Holy Land Foundation trial evidence says "When conducting outreach with organizations identified as being a party to the "strategic goals" identified in the Memorandum, the gain/loss assessment of associating with them should be undertaken in light of their clearly stated hostile intent that includes the subversion of American institutions through outreach, strategic deception and perception management. To undertake outreach with known identified organizations without knowledge of their objectives is to run the extreme risk of strategic manipulation by declared Jihad entities in ways that fulfill stated Muslim Brotherhood objectives as enumerated in the Memorandum... As a Muslim Brotherhood document, it should not surprise that it follows Sayyid Qutb's Milestone formula based on progressive revelation (revelation in stages) as first experienced by Muhammad and the first most perfect generation of Muslims."

Here is an example of US Gov. deception: In 2007 Col. Joseph Myers [said](#) about that Pentagon analysis, "Exceptionally important in the [analysis](#) is the role of the "Truespeak" organization and Jim Guirard who has been arguing in DoD circles and academic institutions that the term jihad should be suspended from the GWOT lexicon to be replaced by hiraba. This analysis demonstrates that "Truespeak" contributors are part of the Muslim Brotherhood threat network, with the implication that this entire communication and lexicon effort is part of a strategic disinformation and denial and deception campaign." The analysis names the contributors, AMSS, IIT, and UASR, all claimed by the MB in 1987 were theirs. 4 of the TrueSpeak list of "Moderate"™ contributors are in my charts, 3 are key figures pictured above: [Shaykh Taha Jabir al-Awani](#) (un-indicted co-conspirator #5 in the [al-Arian](#) trial), [Shaykh Yusuf al-Qaradawi](#) (US designated supporter of terrorism), [Sayed Syeed, Dr. Aboul-Hakin \(Sherman Jackson\)](#), and Professor John Esposito, who once [wrote](#) that [Qaradawi](#) had a "mainstream... kind of reformist interpretation of Islam and its relationship to democracy, pluralism and human rights."

• [Fear, Inc.](#), a Soros funded, [Wajahat Ali](#) is coauthor of this ["Islamophobia" report](#), and was board member of a Muslim Brotherhood group..
